The week of March 22-26 will be used in this class as a spring pause to provide all students with a safe and supportive environment to promote health, wellness and learning without leaving campus. During this week, we will not have any exams or assignments due. We will still have the class with interactive class activities that will require your attendance and be part of our final course grade. While March 25 is a wellness day, attendance is still required for all other class sessions throughout the week. We wish we could take a regular spring break, but public health concerns prevent us from doing so. We would like to emphasize that it is still important for you all to be responsible. Do not use the week to travel or engage in risk behaviors that could result in an outbreak on campus after we all return.
