## Course Overview

This course will provide a comprehensive framework for analyzing the behavior of aggregate economies. Topics will include the determinants of output, unemployment,

## Exams and Problem Sets

Each exam will be composed of several multiple choice questions and some analytical problems. Midterm exams are not cumulative. The final exam will be held in the regular classroom on Wednesday December 19 from 1:30 – 4:00 PM. There will be *no* make-up exams.

Problem sets for each chapter will be posted on the course website. I will choose three of these problem sets to be handed in, and I will give you a week's notice to complete them. Although the other problem sets are not required, I highly encourage you to look at them. The problem sets are designed to aid you in preparing for exams, and their format will appear very similar to the exams. Past students who have not studied the problem sets
