Office Hours: Tuesday 2pm-3pm, Thursday 11am-12noon, and by appointment

Email: <u>sasiwimon.warunsiri@colorado.edu</u>

This is my preferred method of contact. Please feel free to send me an email if you have any questions or concerns about this class. I check my email very often. However, if you do not get my response within 24 hours, please assume that I do not get your email. I suggest you resend it.

Course meeting: Tuesday, Thursday 12.30-1.45 pm in MCDB A2B70

Course website: https://webfiles.colorado.edu/warunsir/website/ECON2020.html

This course website is very important for your study.

(1) I will post an important announcement and your scores of each exam on this website. In case you have any questions or any concerns about your scores in any exams, please contact me immediately, so we can work out together during the semester to improve your scores. Please do not wait until the end of the semester since we will not be able to do anything.

(2) In order to help you to be able to catch up with the materials covered in the class every week, I will also post my handouts on this website. Each handout will give you the outline of my teaching for each week as well as practice problem for each topic to help you to prepare for the examination. The handouts will be posted every Sunday before the class.

Required Text:Paul Krugman and Robyn Wells, Macroeconomics, Worth PublishersStudy guide for Macroeconomics by Paul Krugman and Robyn Wells is
also helpful source; however, this guide is entirely optional.

Prerequisites: Principles of Microeconomics (Econ 2010).

You should be familiar with the basic concepts of microeconomics such as supply and demand. Also I expect you to have some experience using equations, graphs, and tables in the analysis.

Course Description and Objective:

My main objective is to give you a basic understanding on the system of overall economy. Macroeconomics is the study of the economy as a whole. This course is a further study from your microeconomics course, of which you studied on the economic behavior of individual consumers, firms, and industries. In this macroeconomics course, we will study in a broader context of the economy such as the characteristics of aggregate economic variables, and how various fiscal and monetary policies affect the economy.

Examination:

(1) Midterm Examinations: There will be three midterm examinations. Each midterm exam will take place during regular class time in the regular class room. Exam questions will be based on materials covered in lecture. Each midterm exam weight 20% of your total grades.

(2) Final Examination: A final examination is a mandatory. <u>Every student has to</u> <u>attend the final exam.</u> Final exam weight 40% of your total grade. Final exam will include all materials we study for the whole semester.

Recitation:

Recitations are held in order to better prepare you for the exams and make your studying process easier. You will review lecture and book materials, solve problems and get extra help from your TA. I recommend you to attend the recitation because if you miss any midterm exam, you can use recitation scores instead. Recitation weights 20% of your total grade and grading policy depends on each TA.

If you miss any midterm exams for any reasons, your recitation grade will take its place.

Grading:

Midterm 1	20%
Midterm 2	20%
Midterm 3	20 %
Final	40%
Recitation w	ill also be worth 20%. Your recitation grade will replace your midterm grade
